Chennai | 8925321393 | harishsubu08@gmail.com | <https://www.linkedin.com/in/harish-subramanian-sb-275247285>

Professional Summary

Seeking an entry-level software developer position to apply my analytical skills and enthusiasm for technology to deliver innovative solutions. Committed to learning and adapting quickly to new challenges in a collaborative environment to contribute to the success of the development team.

Academic History

Master Of Computer Applications (ONLINE) SRM UNIVERSITY, KATTANKULATHUR, CHENNAI.	SEP 2024 - PRESENT (PURSUING)
Bachelor Of Computer Applications MADRAS CHRISTIAN COLLEGE, TAMBARAM, CHENNAI	SEP 2021 - APR 2024 (64%)
Higher Secondary School Certificate (HSC) CHENNAI BOYS HIGHER SEC SCHOOL.	JUN 2020 - MAY 2021 (72%)

Professional Experience

DATA CONVERSION TNQ TECH PRIVATE LIMITED, CHENNAI	OCT 2024 - MAY 2025
- Process and convert data for book publishing, ensuring accuracy and compliance with industry standards. - Work with XML tagging in Microsoft Word to structure and format content efficiently. - Maintain document integrity and ensure proper metadata application for digital and print publishing. - Collaborate with editors and content teams to optimize document formatting and readability. - Conduct quality checks to verify the correctness of XML structures and formatting.	

Project

Employee Leave Management System (Angular 20 + REST APIs)

Developed a fully functional Employee Leave Management System using Angular 20 for the frontend and integrated with real-time REST APIs. The system enables employees to request leaves, managers to approve or reject them, and administrators to monitor all activity via interactive dashboards and reports.

- Live Demo:** leavemanagementharish.netlify.app (**ADMIN LOGIN: Email:** www@gmail.com **& Pwd:** 112233)

Website (Javascript, HTML+CSS, Python)

Enhanced user experience with responsive design, animations, and alert notifications for actions like login, registration, and errors. Integrated real-time access checks to ensure secure navigation and data visibility. Implemented user authentication & role-based access to restrict pages for logged-in users.
