- Languages & Frameworks:** JavaScript (ES6+), React.js, Angular, PHP, HTML5, CSS3, Tailwind CSS, Bootstrap
- CMS & Automation:** WordPress, Elementor, n8n Automation, RESTful APIs, Webhooks
- Databases & Tools:** MySQL, Git, GitHub, XML Data Tagging, VS Code, Postman
- Core Competencies:** Responsive UI/UX Design, Front-End Optimization, Core Web Vitals, Cross-Browser Compatibility, Performance Profiling, SEO Strategy

EXPERIENCE

Web Developer (Nashi Informatics Solutions Private Limited)

Jun 2026 - Present | Chennai, Tamil Nadu

- Architect and deploy scalable, responsive full-stack features using React.js, Tailwind CSS, PHP, and MySQL for enterprise client portals.
- Implement custom WordPress themes and REST API integrations, enhancing Core Web Vitals and cutting mobile bounce rates by 20%.
- Build robust end-to-end automation pipelines with n8n and external REST APIs, cutting recurring manual business operations by ~15 hours per week.

Web Developer Intern (Nashi Informatics Solutions Private Limited)

Dec 2025 – May 2026 | Chennai, Tamil Nadu

- Engineered 10+ pixel-perfect, mobile-responsive interfaces using React.js, JavaScript, and Tailwind CSS with 100% cross-browser fidelity.
- Maintained client WordPress CMS environments, standardizing UI design systems and optimizing DOM elements for faster page rendering speeds.
- Audited web assets and streamlined CSS/JS bundles, improving Google Lighthouse performance scores from the low 70s to 90+ across multi-page web deployments.

DATA Conversion(TNQ TECH PRIVATE LIMITED)

Oct 2024 – May 2025 | Chennai, Tamil Nadu

- Parsed and structured complex digital publishing datasets using strict XML tagging standards and Microsoft Word macros.
- Executed systematic QA validation scripts, maintaining a 99.8% document integrity and error-free compliance rating across high-volume production batches.

PROJECTS

RailMet - Railway Management System (React) | railmet.in

- Built an asynchronous railway booking dashboard utilizing React.js, Tailwind CSS, and optimized component state management.
- Integrated multi-endpoint REST APIs with client-side caching, reducing live data retrieval latency by 40% under concurrent user requests.

Nashi Informatics Corporate Platform (WordPress) | nashiinfo.com

- Spearheaded the redesign of a corporate website using WordPress and Elementor, strictly adhering to semantic HTML and mobile-first responsiveness.
- Optimized image delivery, minified script payloads, and configured on-page SEO meta, lowering First Contentful Paint (FCP) by 35%.

EDUCATION

SRM UNIVERSITY

Master of Computer Applications - MCA (ONLINE)

Kattankulathur, Chennai, Tamil Nadu

Sep 2024 - May 2026

MADRAS CHRISTIAN COLLEGE

Bachelor of Computer Applications - BCA

Chennai, Tamil Nadu

Sep 2021 - Apr 2024

CERTIFICATION

UI Angular Certification – FITA Academy (2025)

Hands-on coursework covering Angular architecture, Bootstrap UI frameworks, reactive forms, and component-based frontend development.
